## TRANSNATIONAL YOUTH INITIATIVES

Transnational Youth Initiatives are projects that are initiated and carried out by two or more groups of young people from different countries. Transnational Youth Initiatives allow young people to address specific problems or challenges, and put their ideas into practice, thereby providing an important non-formal and entrepreneurial learning experience. By implementing their project, young people reflect upon its topic in a European context. Youth Initiatives can also lead to self-employment or setting up of associations or organizations.

Erasmus+ is the European Union's programme for boosting skills and employability through activities organised in the field of education, training, youth, and sport. Youth activities under Erasmus+ aim to improve the key competences, skills and employability of young people, promote young people's social inclusion and well-being, and foster improvements in youth work and youth policy at local, national and international level.
